Subject: Splits of soil and waste samples

Sherry,

Sunnyside Gold Corporation is no longer interested in collecting split samples from the 30-point composite soil samples collected during the Summer Sampling Event conducted in the fluvial area of the Upper Animas River and from Eureka Gulch between August 4 and 6, 2015. We appreciate your willingness to share splits of these samples and we would like to receive a copy of the laboratory results when they become available.

Thanks,

Pat
